African Belief And Knowledge Systems. A Critical ...

As such, the book explores African metaphysical epistemology with the hope to redirect the debate on African philosophy. It articulates and systematizes metaphysical and epistemological issues in general and in particular on Africa. The book aptly shows how these issues intersect with the philosophy of life, traditional beliefs, knowledge systems and practices of ordinary Africans and the challenges they raise for scholarship in and on philosophy with relevance to Africa.

African Books Collective: African Belief and Knowledge Systems

African indigenous knowledge systems and relevance of higher education in South Africa indigenous knowledge systems as a tool for making higher education relevant to the developmental challenges in South Africa and African at large (Muya, 2007). The call for the interfacing of iKS with other knowledge systems is based on tenets that it can contribute to humanising the western knowledge systems and will be a

African indigenous knowledge systems and relevance of ...

African divinities took the forms of mountains, rivers, forests, the mother earth, the sun, the moon, the stars, and ancestors. The plurality of the divinities with their varying powers, influence, hierarchy, territoriality, even within one ethnic group or community, says a lot about the African religions, worship, beliefs and practices.

Health Knowledge and Belief Systems in Africa

The African Belief System seems to originate from the Creation history where the Almighty God created the universe and the first man. This belief is strongly held by indigenous Africans [4,5] and it has been passed from generation to generation. The spiritual belief is therefore part of an African.

The African Belief System and the Patient's Choice of ...

OLUPONA: Indigenous African religions refer to the indigenous or native religious beliefs of the African people before the Christian and Islamic colonization of Africa. Indigenous African religions are by nature plural, varied, and usually informed by one's ethnic identity, where one's family came from in Africa.

The spirituality of Africa - Harvard Gazette

While there are specific geographic, ethnic, linguistic, and spiritual characteristics among peoples in Africa, African religion in general is the indigenous faith and practice of African peoples, which is the product of their perception, encounter, reflection upon, and experiences of the universe in which they live.

African Religion, Climate Change, and Knowledge Systems ...

The African belief in one Creator God on the one hand, and lesser gods on the other hand, raises the question of whether African Traditional Religion should be termed monotheistic or polytheistic. It is a matter of perspective, whether one lays emphasis on the Supreme Being or on the many 136 mediators needed to reach him³.

AFRICAN SPIRITUALITY 5.1 Introduction

The study is based on the argument that currently the dominance of Western knowledge systems, including biomedicine, created a situation that even reproductive beliefs and practices in African local settings tend to be conceptualized from Western ways of knowing and value systems.
