List of amphibians of North America - Wikipedia

Amphibians and reptiles live in all habitat types in North Dakota. They may be close by, even if you don't see them. Turtles and frogs swim on the bottom of wetlands and rivers, lizards scurry into burrows, and snakes slip away into tall grass. Although they may seem "creepy" to some people, they are all quite harmless, unless provoked, which may cause them to become aggressive in an attempt to defend themselves.
