Linguistics with French (BA) (Full-Time, 2020 Entry)

Applied linguistics is an autonomous subject in linguistics. Before the emergence of scientific linguistics its main task was to optimize the function of language in traditional text (exegesis and hermeneutics).so we can define it as a functional point of view which studies and develops ways to optimize the functioning of language.

The Role of Applied Linguistics in Language Learning

Applied Linguistics When it was suggested that the concept of self-regulation should replace the language learning strategy concept early in the new millennium, there were fears that strategy research had come to an end. Nevertheless, research, debate, and publication on the subject have continued.
