Honda K-Series ( K20, K24 ) Swap Guide: Part 1. I've owned quite a few project cars but the one that stands out the most was arguably the most beat up one with the least amount of power: the Acura Integra. For purists its FWD configuration is considered wrong wheel drive and even though I agree with that statement to a certain degree, some of my fondest track memories are in the Integra.

The good news is that the J35A4 fits, easily, but it's tall. Some custom fabrication, a one-off hood, or even an intake manifold swap will prove to be the remedy.And then there's the cooling system. Simply move the radiator off to the left side to keep things cool--just like with a K swap--and reuse the original Civic hoses.
