lights on or various other electronic device just like the radio and your battery's life is finished.

My Mazda 3 won't start - Car Advice

A possible cause of your no start condition is the starter motor itself. The next time the starter fails to operate, try hitting the starter motor with a rubber mallet. If the car then starts when

that will not start.

When I turn the key it cranks but will not turn over. It sounds like it's going to run, but then cuts off. I just replaced the battery because it had a dead cell.

Thought (hoped) that was the issue, but it's still doing it. I will try to start, it won't "catch" so I turn it off.
