Unix Made Easy 3rd Edition

Unix and its variants can seem highly obtuse to the uninitiated, which is where the third edition of Unix Made Easy comes in. It's a remarkable book, not because it teaches novices how to get around in Unix--plenty of books teach you that ls in Unix is like dir in MS-DOS, and that the vi editor has a million weird commands--but because it teaches its readers how Unix works and why it's more powerful than easier-to-learn environments.
